[INSERT BACKGROUND AND PROJECT PHASE INFORMATION]

This RFT has been prepared utilising the ASDEFCON (Support Short) template, with material amendments to the template identified in the Matrix of Changes at Attachment A to this letter. While all care is taken by the Commonwealth in preparing Attachment A to this letter, it is a summation and therefore may not be complete and accurate. You should not exclusively rely on Annex A to identify template changes in this RFT and should exercise independent skill and judgement in reading and understanding this RFT and in preparing your tender.

Tenders are to be submitted by the Tender Closing Time specified in the Tender Details Schedule in the conditions of tender. Any questions in relation to this RFT are to be directed to the Contact Officer specified in the Tender Details Schedule in the conditions of tender.

MATRIX OF CHANGES

Note to drafters: Drafters should complete the Matrix of Changes prior to submission of the RFT to the Project Director or delegate approving the RFT. The Project Director or delegate approving the RFT is responsible for ensuring that, wherever possible, the form of the template is adhered to and project specific tailoring of the RFT (particularly the non-SOW aspects) is kept to a minimum. This will help improve standardisation and reduce the cost of tendering.

The Project Director or delegate approving the RFT is also responsible for ensuring that the completed Matrix of Changes and a copy of the RFT package is provided to the ASDEFCON and Contracting Initiatives Directorate at procurement.ASDEFCON@defence.gov.au upon release of the RFT. This information will be used for internal analysis and ongoing improvements to the template.

When providing these documents to the ASDEFCON and Contracting Initiatives Directorate, the covering email should identify the project/procurement name, the version number of the template, and the contracting officer, Legal Service Provider and CASG Legal representative (if any) involved in developing the RFT.

Drafters only need to identify material changes to the Conditions of Tender, Conditions of Tender Annexes and Conditions of Contract. The SOW aspects of the template may require more extensive tailoring to match the work scope of the procurement. Accordingly, SOW changes are not required to be captured in the Matrix of Changes table below.
