Schedule of Special Purpose Flights Election Supplement

08 May 2016 to 03 July 2016

Note:

During the election period there was an increased number of positioning flights to maximise the efficient use of the available Special Purpose assets.

The aircraft were required to 'fly in and out' between tasks whilst the VIP was conducting ground events in order to maximise use of the aircraft across the high level of concurrent tasking and ensure efficient use of the allocated Special Purpose Aircraft.

These positioning flights have been costed against the original VIP for administrative and transparency purposes only.

The 'fly in and out' model significantly reduced the total number of aircraft required to complete the rate of overall tasking during the election.
