Schedule Of Special Purpose Flights Election Supplement

11 April 2019 to 18 May 2019

Positioning flight legs are required to maximise the efficient use of the available Special Purpose assets. The 'fly in and out' model significantly reduces the total number of aircraft required to provide the Special Purpose capability. These positioning flights have been costed against the original VIP for administrative and transparency purposes only.

As has always been the case, empty positioning legs are utilised by Air Force crews for essential training and development, whilst still enabling the subsequent Special Purpose flight.

Air Force has revised the additional cost per hour of both Special Purpose aircraft and those costs attributable during the use of other Australian Defence Force assets. These costs are indexed yearly, and reported within the Schedule's 'Adnl cost' column.

SCHEDULE OF SPECIAL PURPOSE FLIGHTS
11 APRIL 2019 to 18 MAY 2019
