Why Are We Here Today

- U.S. Industry Day is being held to provide general information to Australian and U.S. businesses interested in working with NAVFAC as it relates to U.S. Department of Defense (DOD) Military Construction (MILCON) projects in Australia

- The purpose of U.S. Industry Day is to exchange information with the Industry to improve the understanding of U.S. and Australian Government requirements for U.S. funded MILCON projects

- NAVFAC Pacific is the U.S. DOD Execution Agent responsible for U.S. funded MILCON projects in Australia

- Answer your questions about our processes and requirements

Today's Industry Day Ground Rules

➢ **Remarks and explanations addressed during the Industry Day provide guidance and are based on information available to date**

➢ **Each procurement may have special requirements that may differ from today's presentation**

➢ **Project specific questions will not be answered today and will be addressed at the respective Pre-Proposal Site Visits (PPSV) which will occur several weeks after the project solicitation is released**

➢ **We will accept written questions during the morning and lunch breaks and will address the questions during the individual briefs or at the Q&A session. Turn in your written comments to the NT Government check in table outside the room.**
