Defence

The following table provides the number of permits, approved by Defence Export Controls (DEC), for the exportation of goods and technologies on the Defence and Strategic Goods List (DSGL) to Israel between 7 October 2023 and 26 March 2024.

Permit approvals should not be confused with weapons sales. Export permits are required for a wide range of goods and technology, many of which are used for civilian and commercial purposes. This includes where items must return to their original manufacturer for repairs.

Permits approvals should also not be confused with completed exports, as there is no requirement to complete an export once a permit is issued.

Table 1: Permits approved by DEC between 7 October 2023 – 26 March 2024 to Israel

Permits issued between 7 October 2023 – 26 March 2024	
Country	Approved Permits
Israel	2
