

Reporting requirements: PPIs

Program Performance Indicators (PPIs)

PPI 01 Supply Chain Diversification

PPI 01 M1 – New Suppliers Awarded Export Contract

PPI 01 M2 – Existing Suppliers Awarded Contract(s) in Additional Supply Chains

PPI 01 M3 – Existing Suppliers Awarded Repeat Contract

PPI 02 Contract Value

PPI 02 M1 – Total value of Export Contracts

PPI 03 Return on Investment

PPI 03 M1 – Return on Investment (ROI) Ratio

PPI 01: Supply chain diversification

broadening the range of Australian suppliers in a Prime's global supply chain and expanding their involvement in diverse export markets, products, or programs.

PPI 02: Contract value

increasing the total value of export contracts awarded to Australian Suppliers through the Prime's global supply chain.

PPI 03: Return on investment

increasing efficiency of the GSC Program's investment, measured based on the return, in Supplier export contract value, on funding provided to the Prime.

Reporting requirements: SPMs

Strategic Performance Measures (SPMs)

SPM 01 Best for Project

Effective Relationship Management

Resource Sharing

SPM 02 Development of Innovation & Capability to Export

Research & Innovation

Development & Commercialisation

Enhancing Advanced Capabilities

SPM 03 Supply Chain Capability

Supplier Assessment

Opportunity Development

Supplier Training and Development

Supplier Collaboration

Sustainable Supplier Development

Resilient Supplier Development

SPM 01 : Best for Project

demonstrating that the Prime is cognisant of commercial imperatives and displays a willingness to work on a best-for-project basis.

SPM 02: Development of Innovation and Capability to Export

demonstrating instances of generating opportunities for Australian Suppliers to develop, mature and commercialise-leading edge technologies for export.

SPM 03: Supply Chain Capability

demonstrating instances of the Prime investing in supplier identification and capacity-building to enable Australian Suppliers to access the pipeline of potential GSC opportunities identified by the Prime.
