

KONGSBERG

CAPABILITIES BEING SOUGHT

PRECISION MANUFACTURING

- Machined large subassemblies and higher assembly parts
- Tubing and ducting products
- Fabrication and integration of higher-level assembly
- Additive manufacturing/3D printing

MISSILE TECHNOLOGY

- Fuse and propellant systems
- Technology high-energy laser effector technology
- Complex forging and machining solutions

DEFENCE ELECTRONIC SYSTEMS

- Optronic systems (cameras IR/day/night, laser range finder)

HYPERSONICS

- Propulsion
- Fuel inlet and outlet design
- New materials

METAL PRODUCTS

- CNC machining
- Casting
- Forging
- Forming
- Additive manufacturing
- Powdered metals
- Metal injection molding
- Treatments & coatings
- Inspection & testing

CABLE ASSEMBLIES

- Customs design and manufacturing

MARITIME

- Propeller manufacturing and repair
- Efficient dual-fuel engines technology
- Hybrid systems to propulsion technology and manufacturing
- Lifecycle services
- Navigation and automation systems developments
